DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-30, and 57, drawn to a method of inhibiting endothelial cell growth and angiogenesis using calreticulin protein.

Group II, claim(s) 31-32, 36, 40, 43, 47-48, and 51-56, drawn to a protein and composition comprising calreticulin.

Group III, claim(s) 33-34, 37-38, 41-42, 45-46, and 49-50, drawn to a vector comprising a nucleic acids and host cell comprising calreticulin.

Group IV, claim(s) 35 and 39, drawn to a method of isolating a therapeutically effective calreticulin fragment and vector.

Group V, claim(s) 58-59, drawn to a method of inhibiting radiation and chemotherapy induced injury.

2. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Inventions I-V have been found by the examiner to have no special technical feature that defined a contribution over the prior art because Michalak, et al., (WO 96/36643) teach calreticulin, segments, derivatives thereof and therapeutic compositions. Since the inventions do not contribute a special technical feature when viewed over the prior art, they do not have a single inventive concept and lack unity of invention.

Art Unit: 1642

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Natalie A. Davis whose telephone number is 703-308-6410. The examiner can normally be reached on M-F 8-5:30 (every other Friday off).
